Brussels-born and bred, DANSTRAM is more than just a dance artist drawing inspiration from exciting dance music. As a solo act in techno, electro (clash), dark disco, trance and deep dance, with a focus on live performances, DANSTRAM introduces his universe with 'LINKTREES' supplemented with a LIVE SESSION 2024. Carving deep grooves, embracing uplifting vibes, DANSTRAM sits between ARTBAT and The Doors. Pleasing yet distinct in various live renditions, the instrumental version of LINKTREES is accompanied by a video, teasing upcoming releases that shape the evolving DANSTRAM universe next to the LIVE SESSION 2024. Cerebral links are the foundation for new revelations. DANSTRAM around [LIVE] vocals, knobs and a booster (no DJ set) was founded with an emphasis on both live production / performance (and studio recording).
